**Taste that doesn't
need alcohol**

Alcohol-free spirits of a new generation

STORY & PASSION

Volante was created from the need to develop alcohol-free alternatives that do not imitate, but reflect the character of classic spirits. From the very beginning, we have focused on structure, depth, and a true taste experience.

WHY WE DO IT

Taste should not depend on alcohol content. We create alternatives that allow for a complete tasting experience — without compromise and without alcohol.

OUR APPROACH

We develop each product like a distilled spirit — deliberately and in layers. We combine natural ingredients, extracts, and aromas to create a profile that works both neat and in cocktails.

VOLANTE HIGHLAND LEGACY MALT 0.0% VOL.

Volante Highland Legacy Malt 0.0% is a tribute to classic Scotch whisky – crafted without alcohol. Inspired by traditional distillates, it reflects their structure, depth and characteristic style, in which the flavour unfolds gradually and in layers. Thanks to its composition based on barley malt, this alcohol-free spirit delivers a dry, complex character and a long, warming finish.

During the production process, two types of barley malt are used – dark, roasted malt and peated malt – responsible for depth and a subtle smoky note. An essential element is also the contact with oak wood, as in traditional whisky maturation, which enhances structure and creates a more authentic profile. The result is a dry, spicy character with notes of vanilla, spices and wood, finished with a long, evolving finish and a subtle smoky accent.

Oak wood smoked apples barley malt

VOLANTE

CARIBBEAN MOLASSES BLEND

0.0% VOL.

Volante Caribbean Molasses Blend 0.0% is an alcohol-free interpretation of classic rum, inspired by Caribbean distillates and their characteristically deep profile. It combines softness, warmth and an exotic character, in which the flavour unfolds gradually and in layers. An ideal choice for those seeking a more intense tasting experience – built on structure, natural sweetness and a clearly defined rum profile.

The composition has been developed to recreate the character of classic rum in a modern, alcohol-free form. During production, sugarcane molasses plays a key role – providing caramel depth and forming the foundation of the flavour. It is complemented by contact with French oak, which adds structure along with notes of vanilla and tannins. The profile is further enriched by accents of coconut and dried fruits, creating a smooth, exotic composition with pronounced sweetness, notes of caramel and spices, and a long, warm finish with a fruity-spiced character.

Oak wood

sugarcane molasses

dried pineapple

VOLANTE

EASTERN CLEAR GRAIN SPIRIT

0.0% VOL.

Volante Eastern Clear Grain Spirit 0.0% is an alcohol-free interpretation of classic vodka – inspired by its purity, minerality and function in cocktails. Designed as a neutral, precise base, it reflects the character of traditional distillates, where the flavour remains clear yet structured. An ideal choice for those seeking real functionality in a drink – as a supporting component that does not dominate the flavour.

The composition has been developed to recreate the function and mouthfeel of classic vodka as authentically as possible in an alcohol-free form. During production, precise infusion of spices and roots, along with multi-stage filtration, plays a key role. This ensures the profile remains clean without becoming flat. Contact with oak introduces subtle elements known from alcoholic distillates – even without their presence. The result is a dry, clean profile with delicate minerality and a gentle spiciness, finished with a fresh, crisp finish and a subtle peppery note.

ginger

mustard root

VOLANTE LONDON BOTANICAL SPIRIT 0.0% VOL.

Volante London Botanical Spirit 0.0% is an alcohol-free interpretation of classic gin in the London Dry style – defined by a clear juniper character and botanical complexity. Inspired by traditional distillates, it reflects their clean, dry profile, where the balance between freshness and structure plays a key role. An ideal choice for those seeking an authentic gin experience – built on juniper, not just citrus aromatics.

The composition is based on carefully selected botanicals, with juniper taking the leading role and defining the classic gin structure. It is complemented by notes of grapefruit, herbs and spices, introducing freshness, subtle bitterness and a clear, complex depth. The result is a balanced botanical profile with a pronounced juniper note and citrus freshness, finished with a clean, elegant finish and a herbal-citrus character.
